MOTT-SMITH'S RESIGNATION

E. A. Mott-Smith resigned as President of the Board of Health. He filed his resignation with the Governor yesterday and asked that it be accepted "owing to the unfortunate circumstances surrounding the tenure of my office."

The resignation was not accepted, the Governor considering Mott-Smith's resignation in the light of what it was intended—a practical joke—and promptly recommended the chief of the Territorial health department.

In the rush incident to the closing of the Legislature the fact that Mott-Smith's commission expired on April 28th was overlooked and it was not until yesterday that Mott-Smith realized that he was sailing under false colors and was without warrant to direct the affairs of the department.

So he resigned, which he couldn't do because he was not in office—and was promptly recommissioned.

CHARGES FALSE SAYS CATHCART

City and County Attorney John W. Cathcart makes emphatic denial of the charge that he or the department over which he presides was in the least responsible for the delay in carrying forward the work of extending Nuuanu avenue.

Cathcart presented a letter to Mayor Fern, which was read before the Board of Supervisors at a meeting held last evening. The communication reads as follows:

"The Honorable Mayor and Board of Supervisors of the City and County of Honolulu.

"Gentlemen: An attack has been made on me by the morning Advertiser in which statements were made that I or by department are responsible for the 'Nuuanu mixup.' In order that my connection with this matter may be clear, I desire to say that subsequent to the awarding of the Pico and Alameda contract and their entering into the contract and giving the bond required by the call for bids, my sole connection and the sole connection of my office with the matter has been as follows:

"On the 13th day of April, 1911, a letter from the road supervisor of Honolulu was submitted to the Board of Supervisors at its evening session and referred to my department for advice. Upon the following evening, April 14, 1911, at a meeting of the Board of Supervisors, the deputy city and county attorney, Mr. Milverton, advised the board to notify the bondsmen to forthwith carry out the contract by reason of the contractors themselves failing to do so. The Board of Supervisors then authorized the city and county clerk to give such notification to the bondsmen, and such notification was in fact given the following day, April 15, 1911. The time given to the bondsmen to fulfill the contract by the board was to and including April 18, but on April 18 Mr. Green, one of the bondsmen, appeared and requested further time, and the board granted him until April 21 to commence delivery of the curbing under the contract. At this meeting of the board the bondsmen also requested a modification of the contract as to the length of the curbing to be delivered, but Mr. Milverton advised the

board that no such alteration could be legally made.

"This is all I or my department have had to do with the matter until today, when the Board of Supervisors or, rather, a committee of the Board of Supervisors, requested our advice as to their proceedings from now on, which advice we duly gave, and which the board will probably act upon tonight. Very truly yours,

"JNO. W. CATHCART,
City and County Attorney."

NEW LIBRARY BID TO BE CALLED

(Continued from Page 1)

sion of the Legislature, the building committee secured the insertion of an item of \$25,000 in the loan bill, and when the bonds are sold the committee will have an additional \$25,000 available, but even with this the library can not be constructed, furnished and fitted out completely on the original plans.

The committee therefore has decided to call for bids on another set of few but important. Wherever stone-work is called for in the original bid, reinforced concrete will be substituted. "Alternate No. 3," said Mr. Lewis this morning, "embodies changes of plans originally submitted, substitutes reinforced concrete in all places and parts where stone appeared in the original specifications."

It is estimated that this change will save of close to \$20,000 from the cost of the library building and allow the contractors to come within the funds at the disposal of the committee.

In order to be fair in reopening the bidding, the committee has decided to call for bids from all the contractors who qualified originally, but from no others. Several bidders did not qualify, either failing to submit certified checks or required, or bidding only one of the two alternate propositions.

The qualified contractors now are the Lord-Young Engineering Company, the Pacific Engineering Company, F. H. Redward, Samuel Evans and E. P. Chaplin.

Chairman Lewis stated today that the final bids will be opened on Saturday, May 13, at 12 o'clock noon, in the offices of Architect H. L. Kerr.

SUGAR MOVES ARE SPASMODIC

Texas Refineries Import Foreign Sugar For Local Use.

Willett & Gray's sugar journal for April 29 gives the following interesting review of the raw sugar market:

Visible Supply.
Total stock of Europe and America, 3,162,965 tons, against 2,905,198 tons last year at the same uneven dates. The increase of stock is 256,942 tons, against an increase of 288,960 last week. Total stocks and floats together shows a visible supply of 3,284,965 tons, against 3,011,103 tons last year, or an increase of 273,962 tons.

Raws.
The week under review has been notable for one of these spasmodic movements that sometimes occur in an improving market. Last week the quotation for centrifugals was 3.86c. per lb. landed, or 21-2c. c. & f. 98-degree test. The offerings then were small and business very quiet. Beet sugars were at 10c. 71-2d., and holidays came from Friday to Monday here and to Tuesday in Europe.

At the opening of Monday the offerings of Cuban centrifugals had largely increased, but at 1-16c. per lb. higher basis, say 29-14c. c. & f. April (2.92c.) and 25-8c. c. & f. May (2.98c.). The quantity obtainable interested the refiners, and the American came in as principal buyer and accepted nearly all the offerings at above basis, the total business of two days being the unusually large amount of over 1,000,000 bags, or say 140,000 tons to several refiners.

Speculators took advantage of this demand to resell some 200,000 bags of their holdings of April and May shipments, replacing the moderate extent of 50,000 bags with June shipments at 2 11-16c. c. & f. (4.95c. landed).

Arbuckle on the same day made a purchase of 20,000 bags of Porto Rico centrifugals at a further advance of 1-16c. for prompt, say 3.95c. per lb.

Porto Rico, however, was not sufficiently prompt in meeting the demand of the preceding days, and on trying to place more at 3.95c. found buyers wanting at anything over 3.92c., the indications being that the next sale will be on this basis. We can learn of no new Java business, although June-July cargoes have been offered at 10c. 10-1-2d. c. & f., about 4.02c. duty paid. Philippines, however, have been sold to the extent of about 5000 tons at equal to 3.50c. basis 88 degrees.

Europe sympathized slightly with the activity here, advancing beets from 10c. 9d. before the holidays to 10c. 10-1-2d. after, and closing on reaction, at 10c. 9d. for April and May and 10c. 9-1-2d. for August, with cane Java advanced 11-20 to 11c. 10-1-2d.

Our weekly Cuba cable gave receipts six ports 25,000 tons, all ports 60,000 tons, 127 centrals working against 141 last week and 149 last year, showing no new feature on which to change crop estimates.

Good showers fell in eastern provinces of Cuba where most needed, but general rains are still desired.

We note that in March 600 tons sugar were exported from Cuba to the United Kingdom.

F. O. Licht cabled weather favorable for field work on European beet crops. We print herewith preliminary estimates of the beet sowings by Otto Licht, indicating an increase of 1.7 per cent. for all Europe; say Germany increases 4.4 per cent., Austria 1.54 per cent., Russia 3.38 per cent., France decreases 2.34 per cent. Other countries change but little from last year. Sowings have only started, and mail advices tell of severe frosts and storms which may lead to some grain crops being replanted with beets. Otto Licht anticipates a crop of about 7,500,000 tons beet sugar with favorable weather.

Russia had last year a phenomenal increase of 42 per cent. sugar per acre, an output not likely to be reached this year.

Our four ports receipts were 61,555 tons, including 47,000 tons Cuba, 5400 tons Porto Rico, and 9000 tons Hawaiian; meetings 20,000 tons (stock in United States and Cuba together 518,065 tons, against 502,510 last week and 734,102 tons last year).

New Orleans has imported to April 12 105,000 tons, against 81,000 tons last year, showing the increased importance of that market as given by us each week separately. Also Galveston is importing 15,000 bags of Sugar Lands (Texas) refinery, the first foreign raw sugar imported at that port in many years.

At the close indications point to a comparatively quiet market following the week's business.

At the close, 4000 bags Porto Rico, about, were sold at 3.92c. basis 96 degrees, establishing spot quotation on this basis.

WILHELMINA HAS NOT SAILED

Shipping Manager John Drew, representing the Matson Navigation Company, declared this morning that there had been no change in existing steamer schedules of departures from San Francisco as far as the Matson line was concerned.

The statement that the Wilhelmina had sailed from San Francisco yesterday is declared as not founded upon fact. The Wilhelmina is due to arrive here on May 16th and not next Tuesday as reported this morning.

The vessel only arrived at the coast the first of last week, having sailed from Honolulu on April 29th.

BIG GUNS COME BY THE LOGAN

The local quartermaster department has been advised that the United States army transport Logan, that sailed from Manila on April 14th and called at Nagasaki, Japan, enroute for a large supply of coal, will arrive off the port on or about six o'clock this evening.

The Logan is understood as bringing quite a galaxy of stars in the military armament.

Enroute to San Francisco are reported the following:

Brig. Gen. Daniel H. Brush, Major Daniel W. Ketchum, Coast Artillery; Capt. Samuel C. Vestal, Coast Artillery; Capt. Henry W. Butler, Second Field Artillery; Major George E. Pickett, Pay Department; Capt. Edward A. Stuart, Second Field Artillery; Capt. Henry F. McFeeley, Twelfth Infantry; First Lieut. Gilbert S. Smith, Second Cavalry; First Lieut. William Jones, Second Field Artillery; First Lieut. Harry L. Morse, Fifty-first Company, Coast Artillery; First Lieut. Pierre V. Kieffer, Fifty-fifth Company, Coast Artillery; Chaplain Walter K. Lloyd, Second Field Artillery; First Lieut. Edmund W. Bayley, M. R. C.; First Lieut. Morrow C. Gustin, P. S.; First Lieut. Donald W. Strong, Sixteenth Infantry; First Lieut. George Garly, Second Cavalry; Second Lieut. George F. N. Bailey, Twentieth Infantry; Second Lieut. R. G. Parrot, Field Artillery; Major W. G. Gambrill, Pay Department; First Lieut. Myron E. Goodrich, Fifteenth Cavalry; Col. James A. Irons, Twentieth Infantry; Major Clint C. Hearn, Coast Artillery; Capt. Phillip R. Ward, Fifty-fifth Company, Coast Artillery; Capt. Charles E. Kilbourne, Coast Artillery; Capt. James A. Rutgers, Fifty-first Company, Coast Artillery; Capt. Charles O. Zellars, Fifth Company, Coast Artillery; First Lieut. Robert J. Reaney, Second Cavalry; First Lieut. Joseph F. Barnes, Second Field Artillery; First Lieut. William F. Morrison, Second Field Artillery; First Lieut. Edward W. Wildrick, Coast Artillery; First Lieut. Robert Arthur, Coast Artillery; First Lieut. Howard M. Snyder, Medical Corps; First Lieut. James C. Gunn, P. S.; First Lieut. Eugene B. Walker, Coast Artillery; Second Lieut. Frederick B. Terrell, Nineteenth Infantry; Second Lieut. Ralph Dickinson, Third Infantry; Second Lieut. Charles P. George, Field Artillery; Veterinary Frederick Foster, Second Field Artillery; First Lieut. Ernest Graves, Engineers; Headquarters band headquarters Second Battalion, Battery F, Second Regiment Field Artillery; Fifteen enlisted men, Fifth Company, Coast Artillery; Fifty-first Company, Coast Artillery; Fifty-fourth Company, Coast Artillery; Fifty-fifth Company, Coast Artillery; 289 enlisted men.

J. A. Gomes has been placed under arrest at the instance of his wife, who has requested that her hubby be prevented from carrying out alleged dire threats by the issuance of a peace bond. Judge Lyner gave attention to the matter this morning but derided the presence of several witnesses before coming to a conclusion in the case.

Benjamin Clothes

Possess all the important points mentioned below.

The reputation of Benjamin clothes is second to none.

They possess a dignity not found in any other make of men's garments

Away from the ordinary ready-made clothes, you have unlimited choice of exclusive styles to select from, and you can depend on the make.

Every garment is made by hand.
